### ▶ **SAFE DISINFECTION**

There are moving objects that do not light up 20 seconds before turning on the light and they will turn on automatically after leaving.

### ▶ **BODY DETECTION INDUCTION**

This product is designed with body detection,during the use,if it detects the presence of people or animals around it ,it will suspend work with beeping sound.It will continue to work when it detects no people or animals around.

(Note:This product can only detect people,dogs and most large animals,other small animals cannot be detected.)

### ▶ **SUN DISINFECTION GOOD SLEEP**

Thousands of mites are found in a seemingly clean bed that is illuminated by UV light Disinfection lamps.The disinfected bedding has a “small of sunshine”

WBM SMART UV STERILIZER LIGHT		
Electric Appliance	Power (W)	40W
	Input voltage	120 VAC, 50/60Hz
	Power factor	>0.7-0.8
	Ballast	Integrated built-in electronic ballast
	Insulation class	Class II
Modulator Tube	Tube type	U-plug tube
	Lamp holder type	2G11
	Tube size (φ×U)	400mm±2.5mm*40mm
	Ozone	Ozone free, release content<0.24g/ (kW-h) /ozone, release content <0.5g/ (kW-h)
Optics	Color temperature (K)	Ultraviolet
	Wavelength (nm)	Ozone free 253.7nm Ozone 253.7nm/185nm
	Ultraviolet radiation illuminance (μW/cm <sup>2</sup> ) at 1m	180
	Beam angle	360°
Structure	Shell material	Flame retardant PVC + aluminum alloy post
	Protection class	IP20
Others	Remote function	Three time options: 15 minutes, 30 minutes, 60 minutes
	Body induction function	3 - 5 meters, 2.4g signal microwave radar induction
	Delay switching time	20 seconds
	Quality assurance of lamps and lanterns	2 years
	Ambient temperature	-10-+45°C
	Storage temperature	-20-+80°C
