

TLK Series

Rapid reliable deployment. Nationwide use.*

Combining the broad coverage of a nationwide cellular network* with the ease of two-way radio communications. Get your team connected fast.

Keep employees connected and accountable with crisp, clear audio, location tracking and Wi-Fi. Maximize efficiency with single-button operations and long battery life. Improve focus without a large distracting screen to get in the way.

Forget building out or maintaining a costly radio infrastructure. Get your team up and running quickly by deploying nationwide* push-to-talk without the need for costly or time-consuming FCC or spectrum licensing or manual programming. You can even use the TLK Series two-way radios with your current compatible two-way radio systems and smartphones.

As an affordable monthly investment, you can scale your service to match your business needs. And you can reduce or stop your service easily, at any time.

Built for the job

MOTOROLA SOLUTIONS

Features and benefits

Easy to use and manage

Communicate instantly and manage talkgroups and subscriptions in real time. Maximize coverage, connections and productivity without expanding infrastructure. Say goodbye to radio programming cables. Update an entire fleet over the air, without having to touch a single device.

Grows with your business

Easily add or remove subscriptions. No customer service required. With self-service billing, you can scale subscriptions based on your workload.

Communicate across platforms

Boost collaboration no matter what device the team is using. Whether it's front office workers talking to the construction site or the warehouse coordinating the drop-off with the delivery driver, the WAVE app enables instant communication between smartphones and devices across carriers.

Radio integration capabilities

Connect to MOTOTRBO systems you already own and expand the reach of your trunked systems to a nationwide network* for maximum ROI.

One button, multiple teams

Collaborate at the speed of business with push-to-talk. Contact multiple teams simultaneously and securely communicate with just one button.

Nationwide* push-to-talk

Get the best of both worlds by using two-way radio communication on a nationwide network*.

*Coverage will vary. See user guide for details.

TLK 150

TLK 100

Nationwide* push-to-talk

Communicate instantly with team members across the country at the push of a button. Bridge multiple job sites, facilities and operations without needing to set up or maintain a complicated infrastructure.

Built for the job

Get all the benefits of WAVE with a rugged two-way radio. Purpose built for business, everything about the TLK Series two-way radios are smart and intentional.

Built tough

Never worry about rain, dust, extreme temperatures or even the occasional drop. These radios are designed to perform in harsh working environments.

Location tracking

Easily manage your workforce using GPS to maximize safety, check project status, find faster routes, modify tasks and position team members where they're needed most.

Wi-Fi connectivity

Stay in touch inside industrial buildings and other environments where cellular coverage may be limited by sending and receiving push-to-talk calls over compatible Wi-Fi networks.

Private and group push-to-talk

Flexible call options let you communicate between groups or one on one conversation.

Emergency calling and alerts

Enhance worker safety by quickly connecting those in danger with the designated individual or group who can provide assistance.

*Coverage will vary. See user guide for details.

TLK Series Two-Way Radios

TLK 100 Two-Way Radio

Powerful and slim design

Move seamlessly from the field to the office with a streamlined device that supports one-handed use. Hear conversations clearly in noisy environments with loud and clear audio.

SL300 accessory-compatible
