

Curve

Wi-Fi enhanced business radio

Reliable business communication, now with wi-fi and voice assistance capabilities.

Today's business environment has added pressure and challenges to you and your teams. New shopping behaviors, staff shortages and increased health and safety concerns have created a necessity to deliver what the competition can't. Curve, the first business communication device with Wi-Fi and voice assistance capabilities, is here to do just that. Designed specifically for retailers, the Curve radio combines simple, intuitive radio operation with advanced, Wi-Fi-enabled features that help your team stay connected while remaining productive and focused on their work.

Curve combines radio-based push-to-talk with Wi-Fi-powered cloud connectivity, giving you the best of both worlds: simple, clear, robust voice communications and advanced features with intuitive operation. By using digital radio for voice communications, Curve can take advantage of Wi-Fi where it's most effective: leveraging data for advanced applications that help make the radio more useful and intuitive. Curve's ergonomic design, familiar form factor and simple operations make it easy to stay in touch. Its durable construction means that the occasional drop won't necessitate a trip to the back room for a replacement; Curve is built for the real-world challenges of a retail environment. With a 300,000 square foot range*, Curve will not slow you or your team down.
